

**Public Works Maintenance Yard
Public Outreach Meeting
Notes from 01.07.10**

What does Public Works mean to you?

- Streets
- Traffic signals
- Fill potholes
- A neighbor
- Green space
- Conservation/composting/teaching
- Positive impact on community
 - Removing graffiti
- Major spoke in the wheel
- Industrial atmosphere
- Responsive/good follow-up
- Receptiveness/manner in which work is done
- Sewers
- Storm drains

What green/sustainable practices would you like to see used on this project?

- Deal with hazardous materials in a safe fashion
- Choose green materials wherever possible
- Safety is #1 concern
- Make compost/mulch available to community
- Monthly community tours
- LEED certification
- Technology transfer
- Cleaner vehicles
- Noise reduction for neighbors uses
- Traffic management
- Solar/photovoltaics
- Green water runoff
- Drought resistant plants/demonstration garden, like water company
- Shared front yard/better streetscape

What other issues and concerns do you have related to the New Maintenance Yard?

- Street repairs – Grand Ave.
- Vehicle egress/ingress
- Speeding/traffic control
- Preschool pedestrians/need for preschool
- Boys club
- Humane society – neighborhood impacts vs. benefits
- SG trucks coming through Rosemead
- Quid Pro Quo (Access through easement for access to equipment with City of Rosemead)
- Preschool is community resource
- 5000 sq. ft. – what is best for community?
- Possible secondary access from Rosemead
- Would prefer Gladys Ave. access (main entrance)
Bridge required
- Noise
- Accident potential

How should a Public Works facility interact with the community?

- Shared fueling facility increase capabilities
- Entrepreneurial opportunities
- Homeless population
- Relocation of existing uses
- Build real community
